

OTTO KAFKA

Founder · Chief Technology Officer

otto@little-ai-labs.top · ottokafka.github.io · linkedin.com/in/ottokafka

SUMMARY

I'm a founder and former CTO with more than ten years of experience turning emerging technology into market-ready products, including six years leading technology and engineering organizations in security and financial technology. I've built and led teams across the United States, Europe, China, and Malaysia, and I set strategy, manage fundraising and partnerships, and take products from concept to launch.

EXPERIENCE

Founder & CEO · Little AI Labs · United States — Aug 2026 — Present

- Founded the company; own vision, product strategy, and technical direction.
- Lead fundraising, partnerships, and go-to-market for an AI product.

Chief Technology Officer · Malaysian startups — Jun 2020 — Oct 2026

- Set technology strategy and built the engineering organization behind the company's SIEM/EDR products.
- Took petabyte-scale, ML and LLM-driven threat detection from concept to production.

Tech Content Creator · YouTube — Jun 2020 — Present

- Built a global developer audience teaching mobile and backend development.

Full Stack Developer · WaykiChain · Shenzhen, China — Jan 2019 — Jun 2020

- Delivered blockchain platform services and developer tooling for a public chain.
- Led developer relations: conferences and hackathons across Asia and Europe.

Blockchain Developer · Nebulas.io · Beijing, China — Jul 2017 — Jul 2019

- Delivered smart contracts, dApps, and backend services for a public blockchain.
